

ZAK WHATMOUGH

07498 491321 · z.whatmough@hotmail.co.uk · [LinkedIn](#) · [Portfolio](#)

Economics graduate who turns messy, real-world data into clear commercial answers. Comfortable across the analyst toolkit — SQL, Power BI, Python and financial modelling — and happiest taking an open-ended problem from raw data to a finished, decision-ready result. Backed by a buy-side equity research internship and a public portfolio of end-to-end projects.

EDUCATION

Manchester Metropolitan University — BSc (Hons) Economics, 2:2 Sep 2023 – May 2026

- Notable results: Econometrics (96%), Computational Economics (86%)
- Activities: A14 Investment Society and Economics Society — speaker events and workshops on financial markets and applied economics

Rochdale Sixth Form — A-Levels: Economics (B), Business Studies (B), History (C) 2021 – 2023

EXPERIENCE

Equity Research Intern — Kennox Asset Management, Edinburgh Jun 2026

- Applied the firm's proprietary Sustainable Earnings framework to build a DCF valuation for a global equity position, assessing earnings sustainability, quality criteria and intrinsic value
- Pitched the analysis and a buy/hold recommendation to the investment team and co-founder

Investment Insight Day — Hamilton Financial Services, Edinburgh Jun 2026

- Reviewed portfolio performance with the Investment Director and prepared due-diligence questions on strategy, attribution and risk-adjusted returns ahead of two live fund pitches (one manager >£400m AUM)

Customer Assistant — Morrisons Aug 2025 – Present

- Forecast daily demand across two fresh-food categories; maintained legal compliance books scoring 90%+ in internal audits

Pizza Chef / Acting Shift Lead — Fireaway, Rochdale 2022 – 2024

- Led a team of 5–7 across three shifts a week, handling 150+ transactions and up to £3k revenue per night with full cash reconciliation and stock control

SELECTED PROJECTS — full detail at zwhatmough.github.io

Morrisons Market Street — Strategy & Operations Review — 19-slide, client-standard review of Morrisons' counter closures and reopening, built from first-hand experience and 104 tiered public sources; competitor pricing benchmarking and four recommendations.

E-Commerce Commercial Intelligence — cleaned and modelled 1M+ real UK transactions in SQL (star schema, CTEs, window functions) and built a four-page Power BI dashboard with ~15 DAX measures and RFM segmentation.

AI Investment Memo Assistant — Python pipeline that turns an annual report into a cited investment memo with every claim traceable to source; 90% fact recall vs a 50-item gold set; live web demo.

Integrated 3-Statement Models: Tesco & Diageo — full DCF and trading-comps valuations built from filings (~933 live formulas each), with Python scripts validating every historical input.

Morrisons LBO — CD&R Take-Private (2021) — formula-driven LBO of the £9.9bn deal: sources & uses, four-tranche debt schedule with cash sweep, returns bridge and sensitivity tables.

Also: five buy-side-style investment memos and an easyJet FY2025 audit risk review — see portfolio.
